Spanish

NOTICE: Please be aware that you can only register for tests or immunizations at state operated public health locations using this website. This does not include any privately owned and operated corporate testing or immunization sites or facilities. A small percentage of specimens collected at Public Health Offices from individuals tested for SARS-CoV-2, the virus that causes COVID-19, will also be tested for influenza. This will allow the New Mexico Department of Health to monitor for influenza. If your test comes back positive for influenza, you will be notified of the result by phone.
