MODIFIED STAY-AT-HOME ORDER AND CLOSURE OF PUEBLO TO NON-RESIDENTS AND CURFEW

On March 20, 2020, Governor Martinez issued an Executive Order declaring a State of Emergency in response to the COVID-19 pandemic. To protect the health and safety of the Pueblo’s residents and reduce the spread of the COVID-19 virus, the Governor, in consultation and coordination with Lt. Governor Moquinio and Council Representatives, issued a Stay-At-Home Order for all Pueblo residents and a Pueblo Closure to all non-residents on April 17, 2020. After careful consideration of the changing COVID-19 conditions, it is deemed to be in the best interest of the Pueblo to modify the Stay-At-Home Order and Closure of Pueblo to Non-Residents and Curfew. This MODIFIED STAY-AT-HOME ORDER AND CLOSURE OF PUEBLO TO NON-RESIDENTS AND CURFEW will be effective September 30, 2020 at 5:00 p.m. and will remain in effect until further notice. Pueblo residents who travel outside of the Pueblo for any reason are expected to practice social distancing and follow good health safety practices such as hand-washing or using hand sanitizer, wearing a face covering or mask, and sanitizing high touch areas such as cell phones, keys, steering wheels, etc. Be mindful that every time you leave the Pueblo, you put yourself, your family and your community at risk of contracting COVID-19.

NOTICE
2020 HALLOWEEN AND ALL SOULS DAY ACTIVITIES

Dear Community Members:

I hope that you and your families are staying safe and healthy during this difficult time. I know that all of you are making sacrifices and changes to your routines in order to protect yourself, your family members and our community at-large. We are all getting used to washing our hands frequently and using hand-sanitizer, wearing masks, and staying 6 feet apart. We are also unfortunately getting used to changes in our holiday and traditional activities because of the continued threat of COVID-19 cases and the impact that COVID-19 could have in the Pueblo, particularly for our elderly and vulnerable members. It is for that reason that I am imposing the following limitations on Halloween and All Souls Day activities.

HALLOWEEN:
1. No Halloween trick-or-treating within the Pueblo is allowed, even if between family houses or to houses of relatives. Parents/guardians are not allowed to drive or take children to different houses to trick-or-treat.
2. Trick-or-treating outside of the Pueblo is strongly discouraged since traveling among different houses increases the potential COVID-19 exposure of children and their families.
3. If a parent/guardian holds Halloween activities in their home, please remember the indoor gathering limits of no more than 10 people unless there are more than 10 people in the household.

ALL SOULS DAY ACTIVITIES:
1. All activities for All Souls Day must be done within each household with immediate family members. There will be no community gatherings.
2. Activities in individual homes must be limited to no more than 10 people unless there are more than 10 people in the household.
3. Community members cannot visit other households or homes of family members to feed, eat or “trick-or-treat.” We want to discourage people from traveling from house to house.

I know that these sacrifices seem difficult but these are things that we all need to do our Pueblo and people safe in the long run during this COVID-19 pandemic. I appreciate your cooperation with these limitations. Please contact the Governor’s Office at (505) 455-2273 if you have any questions.

SHIP Provides Information and Assistance to New Mexicans

To Maximize Medicare Benefits During Fall Open Enrollment

Medicare Open Enrollment is around the corner—October 15th through December 7th. For most people, it’s the one time of year that you can change your Medicare coverage. If you are in a Medicare health or prescription drug plan, you should always review the materials your plans send you, like the “Evidence of Coverage” (EOC) and “Annual Notice of Change” (ANOC). Medicare health and drug plans can make changes each year—things like cost, coverage, and what providers and pharmacies are in their networks. Also, your health needs may have changed. Now is the time to compare all your Medicare health and drug plan choices.

What is SHIP?

State Health Insurance Assistance Program (SHIP) is part of the New Mexico Aging and Long Term Services Department, and offers free, unbiased, expert information and assistance to New Mexico residents. You can reach a SHIP counselor at 800-432-2080 to get help making the best decision about Medicare for your situation.

If you’re satisfied with your current Medicare coverage there is no need to do anything. However, if you want to make changes and would like assistance, call the Aging and Disability Resource Center (ADRC) at 1-800-432-2080. Even if you’re happy with your current coverage, it pays to compare plans while you can with a SHIP counselor. By reviewing options before making a decision this fall open enrollment, you may be able to lower your healthcare and prescription drug costs. If you decide to make a change to better meet your needs, new coverage becomes effective January 1.

How can people get help comparing Medicare plans?

Call the Aging and Disability Resource Center (ADRC) at 1-800-432-2080 to speak with a SHIP counselor or request an appointment. Appointments will begin being accepted on October 1. Another option is to take advantage of the live web chat at www.nmaging.state.nm.us.

Other Ways SHIP May Be Able To Help You Save Money on Medicare

If you have Medicare and have trouble paying for your health care and prescriptions, there are programs that may be able to help.
Extra Help

Extra Help helps you pay for your Medicare Part D (prescription drug) costs. If you get Extra Help (also known as LIS), you will have either no or a reduced premium for your drug plan and will pay between $1.30 and $8.95 for your medicine at the pharmacy.

Medicare Savings Programs

Medicare Savings Programs help you to pay for some of your Medicare costs related to healthcare (but not prescriptions).

- The Qualified Medicare Beneficiary program - QMB helps pay for your Parts A and B annual deductible, Part B premium, and other copayments you may have at the doctor/hospital.
- The Specified Low-Income Medicare Beneficiary program - SLMB pays for your monthly Part B premium.
- The Qualified Individual program - QI pays for your monthly Part B premium.
- The Qualified Disabled and Working Individual program – QDWI is for people with Medicare who are under age 65, disabled, and do not qualify for free Medicare Part A because they returned to work. QDWI pays for Medicare Part A premiums.

Even if you do not get other types of Medicaid, you may be able to get help from a Medicare Savings Program.

Where to Get Help

Call the Aging and Disability Resource Center (ADRC) at 1-800-432-2080 and ask about Extra Help and Medicare Savings Programs. This office provides free information and assistance to people with Medicare and their families. You can also access live web chat at www.nmaging.state.nm.us.

San Ildefonso Services (SIS) is working with Tech Source and Triad at Los Alamos National Lab to get multiple contracts in place over the next couple months. Triad let SIS know last week that, through the “Pueblo Alliance” Joint Venture with Tsay Corporation (Ohkay Owingeh) and Sky City Communications (Acoma Pueblo), SIS will have the potential to provide services through the Pueblo Alliance for:

- Electricians
- Fencing
- Landscaping
- Buildings and Grounds Maintenance
- Paving
- Small Construction
- Painting
- Other services
- And, as mentioned last month, Escorts for Technical Services.

We hope to have the agreements in place within the next two months. And we apologize if we haven’t gotten back with anyone who has sent us information sooner.

We are also still waiting to hear on a proposal we submitted with CTI under the joint venture SIS-CTI LLC, that bid on D&D services (Demolition and Decontamination). This work is essentially environmental cleanup and restoration. We will hopefully hear before the end of the year on this too.

Lastly, we are still looking for employees as cashiers and cooks at the Totavi and White Rock Convenience stores. Contact Laurence for those opportunities!

If interested in any positions mentioned above, send resume or contact Laurence Pena at lpena@sanisvcs.com or Peter Fant at pfant@sanisvcs.com or (505) 274-9884 for more information. Thanks!

Finally, in the next months, we will be working with MuralNet to gather information relative to internet, broadband, speed, access with CARES Act funding to attempt to improve and expand the existing service provided across the Pueblo.
NOW HIRING

To the community,
San Ildefonso Services is now hiring Service Cashiers for both of our convenience stores. We have fulltime and parttime positions open. Pay starts at $11/hour with a monthly incentive of $300.

STEM Pathways for Girls: STEM Conference and Workshop

An inspiring monthly program dedicated for girls in 5th-8th grade from the seven counties and pueblos of Northern New Mexico. The program kicks off with an inspiring one-day conference for 200 girls usually on a Saturday in October/November. The conference is followed by 6 monthly in-depth workshops led by women in STEM.

Our goal: targeted approach to keep girls engaged in their STEM education while providing a local support system of like-minded friends and STEM women role models.

In this unconventional year, our 2020 conference is going virtual and will span the whole weekend of November 13-15. Stay tuned. Registration will open in October.

At the annual day-long conference, Formerly known as Santa Fe Expanding Your Horizons (EYH), 200 girls in 5th-8th grade get to attend a keynote address, hands-on workshops in science, technology, engineering, and math (STEM) led by women professionals, and a STEAM and College Fair. The girls get a chance to meet STEM role models and expand their knowledge of what STEM careers are all about.

For more information, contact: info@stemsantafe.org

Or, Peter Fant at pfant@sanisvcs.com

This program is for adults and kids, anyone who wants to increase physical activity to gain the benefits of exercise. Most people who can be on their feet for 10 minutes without increased pain will be able to participate successfully. Walking and spending time in nature improves not only our physical health, but also our mental health. Make walking part of your daily routine and track your steps each day for the entire month upon request!

CHALLENGE GOAL:
- Track your steps daily and be entered to earn prizes. (See chart on next page for your recommended daily step average).
- "Challenges" will be offered every month (based on participation)

CHALLENGE PRIZES:
- Incentive will be given to participants at the end of the month
- $10 giftcard to individual with most steps in each age group

Due to COVID-19, this is designed for...
Be Active and Be Safe

As the end of Daylight Saving Time approaches and clocks are turned back, Healthy Kids Program cautions motorists and pedestrians to be more alert to roadway risks.

Motorists:
- Slow down. During evening hours, you need more time to see a pedestrian in your path.
- Keep in mind that pedestrians who are distracted by their phones, or wearing head-phones, hats or earbuds may not hear your vehicle as it approaches.
- Keep your windshield, windows, and mirrors clean. Make sure your defrosters and wind-shield wipers are working properly.

Pedestrians:
- Carry a flashlight or attach reflective materials - such as fluorescent tape. These materials reflect light from headlights back to drivers, making it easier to see you.
- Just because you can see a motorist does not mean he or she can see you. If you cannot make eye contact or do not see the driver slow down for you, just wait until the vehicle passes.

https://www.transportation.gov/

Increase Your Safety

Pedestrians: Carry a flashlight and wear reflective gear in the dark to make yourself more visible to motorists from greater distances.

BE READY
- Equip your bike with a cage and water bottle that can be easily and safely accessed
- Avoid loose fitting pants that can get tangled in your bike chain
- Always wear running or cycling shoes while riding

BE SEEN
- Wear light-toned or brightly-coloured clothing
- Use reflectors and reflective tape on your helmet, clothes, and bicycle
- Equip your bike with a headlight and taillight for night riding

BE HEARD
- Equip your bike with a bell or horn to signal pedestrians and drivers, and to pass other bikes safely
