NOTICE

12/15/2020

Offices will be closed from Monday, December 21, 2020 through Monday, December 28, 2020

Services to the community will continue

Senior Meals
Senior meals will continue to be delivered next week except for Christmas Day.

Food Box Distribution
Food box distribution will be this Friday, Dec. 18th from 1:30pm to 4:30pm at the gym. Please make room in your vehicles, wear your mask and stay in your car. Thank you and Happy Holidays!

Senior Trash Pickup
Due to the holidays all senior trash pickup will be Wednesday, Dec. 23rd and Wednesday, Dec 30th beginning at 10am.

Transfer Station
Transfer Station will be closed Dec. 22nd, 23rd and 25th. It will be open Christmas eve from 8am-3pm. Transfer station will be closed Dec. 29th, 30th and Jan. 1st. It will be open Dec. 31st from 8am-3pm
If you need to contact us, contact phone numbers are listed below.

STUDENT MEALS

There will be NO MEAL DELIVERIES to student homes during the winter break from December 21st to January 8th.

Meal pick-up is available for all children (1-18) at Pojoaque High School in the student drop-off lane from 10 am to 12 pm on the following days:

MONDAY, DECEMBER 21, 2020 MEALS FOR 2 DAYS
WEDNESDAY, DECEMBER 23, 2020 MEALS FOR 5 DAYS
MONDAY, DECEMBER 28, 2020 MEALS FOR 2 DAYS
WEDNESDAY, DECEMBER 30, 2020 MEALS FOR 5 DAYS
MONDAY, JANUARY 4, 2020 MEALS FOR 3 DAYS

Please contact Deborah Cowan at 455-2255 or djcowan@pvs.k12.nm.us if you have any questions.

INTERNET SERVICE

Attention home owners connected to internet by the Pueblo de San Ildefonso Government Contract with NM Surf. Service will continue to be paid by the Pueblo through June 2021.

Internet service reimbursement will also continue through June 2021 for homes with students that have education needs.

Please contact the Education Department staff with questions or if you need assistance.

Holiday COVID Safe Events

12/19 Light Parade CANCELLED.

12/19 House Decoration Contest community judging via survey monkey. Enter by Friday 12/18.

12/21 Gingerbread House contest email pictures by COB to education.sanip@gmail.com
THE LANL FOUNDATION
EARLY CHILDHOOD PROGRAM
PUEBLO OUTREACH PROJECT PRESENTS:

TO KNOW ME IS TO LOVE ME
EDUCATION TRAINING SERIES 3 OF 6

"HELPING YOUR CHILD BUILD A STRONG BRAIN"

Friday, December 18th at 8:45-11:15 am

USE THE LINK BELOW TO REGISTER

The training will cover: Basic Brain Development, the Role of Family Stress on Children, How to Help Children Cope with Stress, the Role of Culture in Your Child’s Life, and How to Build a Strong Relationship with your child.

If you have any questions, please contact RJ Martinez at rj@lanlfoundation.org
Community Reimbursements

Please submit any Internet Reimbursement Requests or Covid Financial Assistance Requests for this year by December 24, 2020. You may email all requests to Leni Pinyan at controller@sanipueblo.org, or bring all documents to the office by 5:00 pm on Friday, December 18, 2020. We will be closed all next week, Dec. 21st through Dec 25th and we will need to have everything entered and paid for the year by December 30, 2020.
LEGISLATIVE UPDATE
DECEMBER 2020

The Legislative Office wishes all a safe, healthy and happy Holiday season!

We will have a year-end report on work done by the 2020 Council in the coming weeks.

Pueblo Project Update

The Pueblo will be seeking funding during the 2021 New Mexico Legislative Session for much needed rehab of the Tewa Center and the Gym. The Pueblo will also be seeking funding through the USDA (United States Department of Agriculture) for sewer facility improvements.

Outgoing Council Representatives

We wish to thank the outgoing Council Representatives, Chris Moquino, William S. Christian and Irene Tse-Pe for their dedicated service to the Pueblo de San Ildefonso. This year has had its share of challenges and they persevered to get work done and accomplish goals for the Pueblo and People. We send blessings to them and their families and hope for a healthy and happy year ahead!

Incoming Council Representatives

We wish to congratulate the new Council Representative Elects who will serve in 2021. These individuals are N. Summer Martinez, Nathan “Skate” Sanchez and Denise Moquino, as well as returning Council Reps. Thomas Gonzales and Raymond J. Martinez. May you all have a blessed new year and have the strength to accomplish many goals for the Pueblo and People. We wish the 2021 Council a healthy, happy and successful year!
POJOAQUE BASIN REGIONAL WATER SYSTEM

PBRWS NEWSLETTER

Volume #1

December 2020

INTRODUCTION

On September 17, 2019, the United States, the Pueblos of San Ildefonso, Nambe, Pojoaque, and Tesuque, Santa Fe County, State of New Mexico and the City of Santa Fe agreed for Reclamation to construct the PBRWS in accordance with the Consensus Agreement. This consists of:

- A surface water diversion on lands belonging to the Pueblo de San Ildefonso;
- A water treatment plant (WTP) to treat water to meet Safe Drinking Water Act standards;
- 22 water storage tanks (7 new tanks and 15 existing);
- 4-mile-long raw water pipeline from the Rio Grande to the WTP;
- A potable water transmission and distribution system consisting of approximately 151 miles of pipelines (varying in diameter from 6 inches to 24 inches);
- 6 pump stations; and
- Approximately 7 miles of new power lines; and a San Ildefonso irrigation improvement project on the Rio Pojoaque.

FACES OF PBRWS

Hello, my name is Jerry Nieto. I am the Project Manager for the Pojoaque Basin Regional Water System (PBRWS) project and manage the Pojoaque Engineering Division comprised of both engineering and construction areas with the Bureau of Reclamation. I have been involved in the PBRWS since September 2017 and during this time, we have worked hard to complete 100% phase 1 design with our Design-Build contractor, CDM-Constructors. In addition, we have made progress on phase 2 and phase 3 designs with the Bureau of Reclamation’s Technical Service Center (TSC).

Phase 1 is a design-build segment (water intake, treatment plant, transmission and distribution pipe, and storage tanks in San Ildefonso, Pojoaque and Nambe Pueblos) and is planned to be constructed by CDM. The phase 2 segment (storage tanks and transmission and distribution pipe in Pojoaque, Nambe, and Tesuque Pueblos, and Bishops Lodge in Santa Fe County) is being designed by the TSC and is at 60% design. Phase 3 integrates design components by CDM Smith (100% complete) and TSC (30% complete) and includes deferred equipment for future water demand and distribution pipe throughout the project area. Phase 2 and phase 3 construction contracts are planned to be advertised and managed by Reclamation.

Construction began on a limited piece of phase 1 at the water intake on the Pueblo de San Ildefonso in May 2020 and is expected to be complete by May 2021. It is anticipated that additional phase 1 work will be awarded to continue the progress on the project.

As I prepared this message for our initial newsletter, I feel obliged to let it be known that this is my last month of employment with Reclamation. I have worked on many gratifying projects throughout my engineering career and the profession has been very rewarding for me. In closing, it has been an honor to work with all the stakeholders on the PBRWS project and I wish continued success as the project moves forward to ultimate completion over the next several years.

INSIDE THIS ISSUE:

Introduction .............................................................................................................1
Stakeholder Highlights .....................................................................................2
General Progress and Project Reporting ...............................................................3
Background and Point of Contact .......................................................................4
"The start of the construction of the Pojoaque Basin Regional Water System is a milestone that we at the Pueblo de San Ildefonso have heard and talked about for many years and it is hard to believe that it is finally happening. This is because the Pueblo has been involved in the Aamodi water rights litigation for decades and the regional water system is a core part of that Settlement that previous San Ildefonso Governors and Tribal Council members have long discussed, debated, negotiated and fought for because the regional water system will ensure clean drinking water for our Pueblo community and others in the Pojoaque Basin. The Pueblo de San Ildefonso, along with leaders from my sister Pueblos of Nambe, Pojoaque and Tesuque, and our partners at the County of Santa Fe, the City of Santa Fe and the State of New Mexico have worked diligently for many years and overcome many hurdles to get to this point and I applaud everyone’s efforts today. Because of this work and dedication to their communities’ well-being, we are finally starting construction on a water system that will bring clean and safe drinking water to my Pueblo and the Pojoaque Basin into the future," said Pueblo de San Ildefonso Governor Perry Martinez.

In December 2010, Governor Perry Martinez was present when President Barack Obama signed the Settlement Agreement and funding for the construction of the PBWWS.
The limited construction phase of the Pojoaque Basin Regional Water System consists of approximately $12.5 million worth of construction on the Pueblo de San Ildefonso. This work is described below. The duration for this scope of work is approximately a year and a half and the Notice to Proceed was issued on May 15, 2020.

- Clearing, grubbing and grading work for collector wells ("CW") 1 and 3;
- Caissons for CWs 1 and 3;
- Raw water, well vent and NF concentrate pipelines from CW 1 and 3 to the junction of CW 1 and CW 3 access roads; and from the junction of CW 1 and CW 3 access road to the Mechanical/Electrical ("M/E") Building;
- Access roads from "M/E" building to CWs 1 and 3.
- Well development and testing for CWs 1 and 3;
- Electric Duct bank from CW 1 and CW 3 to the M/E Building;

Construction Safety Requirements

All on-site workers or visitors are required to check-in and follow the Construction Protocols for the Pojoaque Basin Regional Water System Construction Project:

1. Mandatory: One (1) hour safety video is required to be viewed at the PBRWS Intake Trailer. NO EXCEPTIONS
2. Hard Hat
3. Safety Glasses
4. Safety Vest
5. Mask/Face Covering that fully covers the mouth and nose
6. Sturdy Work boots

AAMODT SETTLEMENT AGREEMENT

The Pueblos of Nambe, Pojoaque, San Ildefonso and Tesuque, Santa Fe County, the State of New Mexico, the United States, and the City of Santa Fe ("Settling Parties") entered into a Settlement Agreement, which was approved and adopted by the Federal Court in 2016. The final judgment and decree was filed on July 14, 2017. The Agreement primarily concerns the water rights of the four Pueblos in the Aamodt adjudication within the Nambé-Pojoaque-Tesuque basin, but it also makes certain beneficial concessions regarding non-Pueblo water rights. The goal of the Settlement Agreement is to resolve the Pueblos’ water rights claims while preserving existing non-Pueblo water uses. This goal is achieved, in part, by bringing more water into the Pojoaque Basin through the construction of a regional water system for both Pueblo and non-Pueblo water users. SantaFeCountynm.gov.aamodt/publicworks. Aamodt 2020.

“OTHER AAMODT SETTLEMENT PROJECTS”

The existing infiltration gallery located the Pojoaque River Barrier Dam is no longer able to convey the Pueblo’s allotted water into the Pueblo de San Ildefonso’s irrigation system. The project combines a new infiltration gallery and conveyance pipeline located at the east boundary of the Pueblo de San Ildefonso, or Pueblo-owned lands, on the south side of the Pojoaque River. The Project will improve flow into the existing Pueblo de San Ildefonso irrigation system.
Construction for this project started September 15, 2020. To date, approximately 4,620 ft of the approximate 7,500 ft of pipeline has been installed and crews are continuing to work on the construction of the flow junction box. The remainder of the project will continue throughout December 2020 and into January 2021. The estimated completion date is at the of January 2021.

FOR IMMEDIATE RELEASE
Dec. 2, 2020

NMDOH announces five additional Curative test sites

SANTA FE – The state of New Mexico and Curative are expanding their COVID-19 testing partnership efforts to include five more locations statewide.

In addition to the location at Balloon Fiesta Park in Albuquerque, the following new, free testing sites are operational Sunday through Monday.

- Judy Nelson Elementary School – 40 CR 6580, Kirtland, NM 87417, 10 a.m. - 3 p.m.

- Northern New Mexico College – 921 N Paseo De Onate, Española, NM 87532 (east entrance off Railroad Ave,) 10 a.m.-2 p.m.

- Daniel Fernandez Park – 1103 NM-314, Los Lunas, New Mexico 87031, 10 a.m.-3 p.m.

- Rio Rancho High School – 301 Loma Colorado Dr NE, Rio Rancho, NM 87124, 10 a.m.-3 p.m.

- Opens Friday, 12/4: Starmax – 333 N Country Club Rd, Deming, NM 88030, 10 a.m.-3 p.m.

Curative is a California research company that created the first oral fluid test in the United States. Trained local, state, and New Mexico National Guard staff are present to ensure samples are properly collected. The Curative, self-collected, swab tests are demonstrated to be at least as accurate as nasopharyngeal test swabs.
“It has been our intention to open more Curative sites since the first one opened two weeks ago at Balloon Fiesta Park in Albuquerque,” said Acting Department of Health Secretary Billy Jimenez. “The site has been very successful and we are pleased to provide another, less invasive means of testing for New Mexico. We encourage everyone to keep getting tested as this is the fastest way for counties to go from red to green.”

As with all COVID-19 tests in New Mexico, these tests will be administered for free; clients must pre-register at curative.com.
